## Hindu Immigration

Ottawa, May 11th.—The report of makes all immigrants liable to the portation who come in violation of the laws of their own country. This is the subject of a bill introduced by the British authorities on the subject of immigration to Canada from India and the Orient generally was presented to parliament last week, together with a bill to amend the King's recommendations. It marks the largest and most complete problems confronting the all interests of Canada and the empire. A full and frank interchange of views between the British and Canadian governments has resulted in the adoption of a municipality of cooperation in which Great Britain's policy of protection of the natives of India harmonizes with Canada's policy of keeping the Dominion a white man's country. Under the new time there is no longer any necessity of legislative action which might reflect a Great Britain's subjects in India, and render still more critical there a situation of even pregnant with disaster.

The solution of the problem is the striking feature of the bill. The doors is based on a change in the Indian immigration act which prevents natives leaving India under contract to labor in any outside country unless the said contract is in the list of countries approved in the act as being those which have been considered by the immigrant governor-in-council, adequate for the protection of natives of India to stay in that country. Canada is not in this scheduled list. Therefore the bringing of the contract labor as was to be expected, Canada has not only the sympathy and understanding, but the hearty cooperation of the natives of India in the main source of labor for a future influx is contrary to the laws of India. The order-in-council just passed Britain and India as well.

## Ghostly Murder in Barracks

Port Townsend, May 11.—One of the most blood-thirsty murders ever committed in the state of Washington was perpetrated at Port Townsend on Friday night, at least hereabouts. Some time during last night, Henry T. Johnson was murdered and his body dismembered and thrust into the heating furnace in the basement of the barracks. Fire was then started, evidently by the perpetrator, with the hope of burning the body and hiding the ghastly crime. This morning the charred body of the victim was dragged from the fire by the firemen when they went to fire up for the day. The remains were identified as those of Johnson from fragments of the hand uniform which adhered to the body.

Notwithstanding that the limbs of the victim were severed from the body and the skull shattered in, no indications of the death or blood can be found about the building.

Johnson was known to have considerable money and loaned in small sums on interest to enlisted men. James H. Holt, second cook in the barracks, was known to be in debt to Johnson, and was the last man to be seen with him last night and disappeared from the barracks. Both were caught under the door of the barracks this morning and arrested. Judicious police officers as the motive for the crime.

## BOASSA WILL BE NOMINATED

Montreal, May 11.—It is announced today that Boassa will accept the nomination at Vancouver and will oppose the candidature of St. Marie Wednesday. It is stated the Conservatives will run in 40 constituencies leaving the other ten to Boassa and his friends.

## Fatal Explosion at Exshaw Quarry

Exshaw, May 11.—A fatal explosion occurred at the Exshaw quarry on Saturday, the victim being J. Cerck, a foreigner, several others including the quarry foreman receiving minor injuries.

A long hole was being charged preparatory to firing a blast and 36 sticks of dynamite had been put in place when the whole blast exploded, with the result noted above. A number of the quarry gang were within the range of the blast, but the force of the explosion seemed to expend itself principally in the direction of Cerck. Aid was at once at hand and the unfortunate man was hurried to the station and placed on board the westbound local in an effort to get him to the hospital but he expired as the train was passing Banff.

An inquest will be held in an effort to ascertain the cause of the accident.

## CARRIED OUT HIS THREAT

Warkentin, Ont., May 11.—An eight year old boy named Kallum, committed suicide at Eden Grove, seven miles from Paisley by hanging himself because his mother insisted on him going to school, where he is said to have had trouble with the teacher of playmates. The boy said he would die first. No attention was paid to his threat, which was considered an idle one, and he was sent off. Later his body was found hanging to a rope.

## Big Bush Blaze

Prince Albert, Sask., May 11.—Word reached the city today that a bush fire raging across the river had reached the timber limits of the Prince Albert Lumber Co., Sturgeon Lake, seventy miles from here. Three camps are burned and the fire is raging in standing timber. A party left Prince Albert last night to homesteaders are burned out.

## WANT MORE FRANCHISES

Montreal, May 9.—A curious demonstration was held at the Monument Nationale to proclaim the right of the French language in Canada, more especially on railway tickets, notices and public documents. Among the speakers were Bourassa, Armand Lavigne, M.P., and other ultra-minority leaders.

Bourassa declared he had risen from the dead and in a fiery speech said he was going to fight for the French language for the compulsory use of French where there was a certain proportion of French-speaking citizens. Other fiery orations were made in the same vein.

Scholar Dandridge, speaker of the Senate, endeavored to show that the attacks on railways and others for not using more French was a desire. The senator was opposed all the day. Nothing was done, but the 12,000 people who came to the demonstration were not disappointed.

## CANADA'S TRADE WITH MEXICO

Ottawa, May 11.—Mr. D. B. Macdonald, Canadian trade commissioner in Mexico, in his report to the department of trade and commerce, says that Canada is beginning to get a foothold in the Mexican market.

Imports from this country last year were to the value of \$18,718,821, against \$26,033,270 two years ago. Mexican foreign trade is rapidly increasing. The total for 1922 being upwards of \$100,000,000, against \$40,000,000 in 1920.

## One Intended Victim Escaped

La Porte, Indiana, May 11.—The prosecution is weaving a net around Ray Lamphere, who was associated with the Chicago woman, a third of hair found in the hand of the dead Heiglein was declared after microscopic examination to be from the head of Lamphere and this further indicates that this victim did not die without a struggle.

Other witnesses tend to prove that Lamphere dug the grave and helped to bury Heiglein. The startling feature is the remains of three knives two of them surgeons' knives such as used by demonstrators in dissecting. The discovery of these in the burned house satisfied all doubts that Mrs. Lamphere was sufficiently learned in anatomy to disarticulate the victim's limbs, surgeons here asserting that this was skillfully done. There is great interest in Anderson, who will testify. Anderson was enticed to the house by an advertisement in a Norwegian paper and was assigned to the guest chamber. He declares that one night he awoke to find Mrs. Lamphere standing over him with a sponge. When he started the widow quickly left the room. Suspecting she was meant mischief Anderson promptly departed from the place next morning, averting one more tragedy.

## INDEPENDENT CANDIDATE FOR PRESIDENCY

New York, May 8.—The Independent party announced tonight it had been decided to hold its convention in Chicago on July 27th and 28th. This convention is to name an independent candidate for president and vice-president. The state convention of the Independence party was held at Caticog last Saturday night and passed resolutions pledging the delegates to vote for the nomination of candidates "absolutely free of both of the other old parties."

## Shot Father to Save Mother

Niagara Falls, N. Y., May 11.—Norman Whitehead, 46, of 15 years, had seen his mother abused by his drunken father ever since he could remember. Yesterday he spent his savings for a revolver. When the elder Whitehead returned home this morning and began abusing his wife, Norman slipped upstairs to his bedroom and got the firearm. When he returned to the kitchen where his mother and father were quarrelling, Norman told his father "I would kill him if he did not let his mother alone."

"Shoot me if you dare," the man challenged as he threatened to strike his wife. The lad emptied the five chambers of the revolver. Your went wild and the last penetrated the man's right lung. He will not live many hours. "Come on mother, don't stay where he is," the boy said turning to his mother, and led her away from the room. When he was arrested a few hours later, he had his revolver reloaded, but gave it up readily and did not resist arrest.

Mrs. Whitehead said she intended to shoot Whitehead the next time he attacked her if he did not let her alone.

## PACIFIC EXPRESS REPORTED WRECKED

North Bay, May 11.—Number 97, Pacific express, which left North Bay this morning at 10, was wrecked at 3 miles from North Bay this afternoon at 5 o'clock. The scene of the wreck is 30 miles west of North Bay and details are meagre. It is stated that one man is seriously injured. Supt. Brady left for Woman River to look on the Imperial Limited.

## Strathcona City Won Again

Last evening at the Edmonton Exhibition Grounds the Strathcona City football team won its third consecutive victory when it succeeded in defeating the Y.M.C.A. by the close score of 3-2. The contest was undoubtedly the fastest and most exciting of the season. The University City boys scored the first tally in 8 minutes on a nice shot by Staddon from a pass by Burrard, and the second by Judge in 5 minutes on a combination play. Y.M.C.A. scored the next from a scrimmage in front of the City boys' goal, after Carmichael and Bellamy had both mislaid. Brown scored. The third went to the City on a long shot by "Patsy" Newman, the Edmonton goalie misjudging it. This ended the scoring in the first period. The play all through was in favor of the City aggregation, and it was only the hardest kind of luck that kept the City from scoring at least two more goals.

During the second period the Y. M. C. A. had the best of the game, their splendid control telling in their favor. They scored their last tally in nine minutes on a pass from Brown. With the score standing 3-2 against them the Edmonton lads tried hard to equalize, but without success. Just before the call of time, Lambson scored a goal for Strathcona on a beautiful shot, but the referee disallowed it, claiming he was off-side.

The teams were:

City	Goal	Y. M. C. A.
Fitchard	Backs	Honkey
Carmichael	Halfbacks	Britain
Bellamy	Halfbacks	Short
Cox	Halfbacks	Nelson
Tomings	Halfbacks	Stockdale
Abbott	Halfbacks	Kedder
Burrard	Forwards	Hoffman
Christie	Forwards	Gardner, capt
Judge, capt.	Forwards	Brown
Newman	Forwards	Black
		Embley
		Taylor

Mr. Hopkinson acted as referee to the satisfaction of both teams.

## EDMONTON PROTESTS

Evidently Edmonton is not going to let the Strathcona City football team win the championship of this brilliant team which was at one time a confederate friend of Emperor William. The Inter-City League if they can hinder it by fair means or foul. The following protest was received by the secretary of the City team this morning:

Secretary Strathcona Football Club:

Dear Sir:—I have a protest registered against your club for playing a professional, and an unregistered player. This will come up at the meeting tonight. Please give it your immediate attention, if you desire to defend yourselves and a delegate and \$2.00 protest fee, failing fee protest is awarded.

C. W. ESPLIN,  
Secretary League.

This to say the least is most unsportsmanlike on the part of the Y.M.C.A. Both the players referred to (Christie and Bellamy) have already played two games in the league, and not one word of complaint has been registered against them. This protest was made after the game instead of before, and in all probability would not have been made at all if the Y.M.C.A. had won. As it is there is at least one Edmonton team who is

playing an out and out professional, but as it happens to be the weakest team in the league and has not yet defeated the Y.M.C.A. nothing has been said about it. Last year the City boys won the championship and were not even granted the cup that was emblematic of the same, the Edmonton team claiming that it was not supposed to have Edmonton I Messrs. J. E. McGregor-Gardner and Andy Davison Jr. will look after Strathcona's interests at the meeting which will be held at the Y.M.C.A. in Edmonton tonight.

## The Doughboy Puzzle

Worthing, May 11.—The Doughboy puzzle is still unsolved. They are confined to the agricultural building in custody of the police. They are fed on apples and peanuts only and never see much meaty of them of both sides, discard their clothing and parade the hall. They are, of course, washing frequently, and the police wish that they practice no immorality, their relations being purely platonic. They regard themselves as brother and sister. It is rumored, on pretty good authority that the worst of them will shortly be placed in an asylum and the rest scattered in various places in the province.

## A Prince Arrested

Berlin, May 11.—Prince Philip Ze-Eulenburg was today placed under actual arrest. The crown prince took this step as the result of the testimony given by two men at the prince's bedside yesterday to the effect that Prince Ze-Eulenburg had been guilty of wrongful actions with them twenty-five years ago.

Prince Ze-Eulenburg was involved in the court scandal in Berlin that grew out of the charges brought by Maximilian Harden, editor of the "Zukunft," last summer. At the second Harzen trial the court declared that all the charges by Harden were absolutely without foundation.

After the termination of the Harzen case the public prosecutor started proceedings against Ze-Eulenburg, and the arrest of the prince is the outcome. The prince was taken into custody at his castle at Liebenberg, and brought in an ambulance automobile forty miles to the Charity hospital where he was detained pending further investigation of a charge of perjury made against him.

The prince's arrest is taken to mean the irretrievable ruin of this brilliant man, who was at one time a confederate friend of Emperor William. The prince had been nearest to his majesty during the greater part of his reign than any other German subject.

Hemholtz have been chancellor of the empire if he had not refused the responsibility incident to the post.

## Tommy Declined

Sydney, N.S.W., May 11.—A cablegram from Sydney, N.S.W., says that Tommy Burns, heavyweight champion, accepted an offer of \$15,000 to visit Sydney and take part in three fights while the American battleships are at Sydney next August. Burns' representative in London says that the champion has accepted the offer to visit Sydney. He agreed to go if he was given \$15,000 for one fight, but the Sydney club demanded three fights for the same amount, which Burns declined. Burns is now in London trying to arrange a fight with Phil Squires.

## CURRENT COMMENT

There is being scattered broadcast over the Dominion a pamphlet dealing with the Disposal of Western Timber Limits and consisting of the speech of the Minister of the Interior in the House of Commons on February 4th, 1908, in defence of his administration. The whole burden of Mr. Oliver's story is that whatever wrong may have been done by the present government their Conservative predecessors had been worse. This argument, or to be more correct, lack of argument, shows the sole method of justification adopted by believers in the present government. Their theory seems to be that what has been done good, had or indifferent must mark the course to be followed in all time coming.

It is an old rule, says Mr. Oliver, that he who seeks justice must himself be just and that those who go into court seeking justice must go with clean hands. When a party, like that of hon. gentleman opposite, goes about the country declaiming against the improper conduct of this side of the House and asks to be put in our places in order that they may give a better administration, it is desirable the country should know what the record of these hon. gentlemen is so that the country may judge what sort of an administration they are likely to give us.

Where I oh where did the Minister of the Interior pick up this idea. The rule of justice is entirely the reverse. The rule of justice is that a man is entitled to justice no matter what his own record is. Apart from this, however, the Minister apparently overlooks the fact that this is not a question between two opposite sets of administrators but between the people of Canada and the government. Does Mr. Oliver suggest that because the people of Canada had an unsatisfactory government 20 years ago their duty of necessity have an unsatisfactory government to all eternity. If that be his belief as well as the argument which he advances will be the awakening. The people of Canada are entitled to a clean government and unless we are much mistaken in our own interpretation of the various signs of the times they are clamouring for it now in no uncertain way and they will enforce their outcry at the ballots when the time comes. Mr. Oliver knows better probably than any man in Canada the vast increase of western population that has taken place in recent years. Does he imagine that such a vast increase will be content to take an explanation of the spoliation of the public domains by the Imperial Poly Company, otherwise the Barrow-Sifton group, the bare statement that "we gave it to the Conservatives and the same? Will not the new voters who have been coming in with what has taken place in the past, our ideal is clean government and we will vote against any government that does not give us what we want. The present government has failed, and are unworthy of support. If the next government fails them then not turn on every government no matter what political flag it sails under until the country has got rid of the hater and the grater, has got rid of civil service scandals, timber limit scandals, fishing right scandals and is in fact as well as fiction by the people for the people.

Mr. Pugsley seems to be a veritable political Vicar of Bury to judge from the following record quoted from the Winnipeg Telegram.

Mr. Pugsley has been a Liberal for now going on twelve years, says the Montreal Times. Mr. Pugsley was a Conservative for eighteen years, but twelve years later (sic) record of Mr. Pugsley as a Liberal. He was a Liberal once before, but that was for only five years. It happened this way. While the Mackenzie government was in power Mr. Pugsley was a Liberal. When the Mackenzie government went out Mr. Pugsley became a Conservative and he remained a Conservative while the Conservatives were in power. When the Conservatives went out Mr. Pugsley became a Liberal again, and of course, has been one ever since. So that in all Mr. Pugsley has been a Liberal for nearly seventeen years and a Conservative for eighteen years. This is dividing things pretty evenly.

## THE SCOTTISH SABRATH

The plea of the Lord's Day Alliance that they desire the introduction of the Scottish Sabrath lends interest to the passage in the Rev. Gray Graham's "Social Life in Scotland in the Eighteenth Century" as to Sunday observance in Scotland during that period. The day, it is said, was fenced about by solemn preparations. Benedictions and gravity were required especially on the Saturday night, by which time the fire was "set" for the morrow and the provisions prepared, and the goodman's face was unguiped with scions or shaved of a week's growth of hair. Only in the evening was there a hot meal in any home. To attend church was no question of choice, it was a matter of compulsion. In Glasgow, to secure the proper observance of the day, companies, or "humbly", patrolled the streets and yards on Saturday night to see that by ten o'clock all folk were quietly at home; and "if a curious sound betokening untimely revelry issued from behind a door or a stream of light from chimneys of a window shutter betrayed a jovial company within, they entered and broke in the party which dared to be happy so near the Lord's day. On Sabbath the ministers or elders in their turn perambulated the streets during divine service, and visited the Green in the evening halting all "vagabonds" to kirk-session. Civil and ecclesiastical authorities went in hand to discipline unruly measures. Municipal laws in Edinburgh forbade barbers to shave the heads of customers on the Sabbath; and even the late grazing out of windows on the Lord's Day entailed a fine.

## Experts Views on Ross Rifle

Ottawa, May 21.—According to additional papers recently brought down in the House of Commons with reference to the Ross Rifle, the chief at Woolwich, England, reported in July, 1906, that the test and body of the Ross rifle were strongly constructed and serviceable, but the lock bolt was defective inasmuch as it does not withdraw. As primary extraction depends upon the movement obtained in the first movement of bolt extraction, the rifle was to be somewhat weak, being made of sheet material.

The magazine is poorly constructed and is made of this sheet metal, depending on the workmanship mainly for its support. The cutoff is simple and clean but unsatisfactory. The construction of the back sight is decidedly weak, the last being made of thin sheet metal pressed up to form a rib in imitation of the Masters. The slide is poorly fitted throughout and the main object in this sight appears to have been cheapness of construction. The nose of the slide in construction, but one that could be cheaply made. The sliding part in the butt plate is not likely to be very durable, as any blow on the plate would fix it. The stocking of the gun is very rough and the fitting poor.

## NEWSPAPER DIFFICULTIES (Canadian Courier)

London, the world's biggest city, is  
once more without a penny Liberal  
morning paper. "The Tribune" for-  
mally shut over two years ago ceased  
publication with its issue of February  
7th. It was started on January 15,  
1895, by Mr. Franklin Thompson—  
in M.P. for Leicester—as a morning  
paper supporting the principles of Lib-  
eralism and social reform. The Tri-  
bune did not fail for want of talent  
either on its editorial or its business  
side. The men who had control of the  
journal were of high reputation as  
journalists and business men respecti-  
vely.

The case of the Tribune is, in fact,  
a forcible example of the immense  
difficulties that lie in the way of the  
successful establishment of a newspa-  
per. Its proprietors admit a dead loss  
on the venture of a million and a  
quarter dollars, but the exact figure  
will probably work out higher than  
that. Quite recently additional capital  
was raised in America but even this  
did not prevent the failure. It is rather  
a significant point that London,  
with its many newspapers, and with  
a Liberal Government sitting at West-  
minster, has not a single penny Lib-  
eral morning journal, while the Con-  
servatives have at least three well  
established organs in this class.

## NOT GUILTY (Winipeg Telegram)

From the preliminary proceedings  
before Judge Casels in the commis-  
sion appointed to review the commis-  
sion appointed to investigate the civil  
service, it would appear that Messrs.  
Fyfe and Babin are going to be  
placed on trial for the venious offence  
of having discovered irregularities in  
the administration of a department  
for which the government is responsible.

The commissioners have adopted a  
reasonable attitude. They have said  
that they were empowered, in the  
interests of the people, to look into  
the civil service, and that in a certain  
department they found evidence of  
graft and dishonesty, for which the  
minister of that department is un-  
questionably responsible. They decline  
to abate one word of their report.  
They decline to be placed in the po-  
sition of defendants in an action for  
criminal libel. They say that it is  
not for them, not merely to make a  
report but to justify the allegations  
contained in that report.

As a result of their investigations  
they were compelled to make these al-  
legations, and there the matter rests.  
That is quite intelligible, but it is  
not the method of procedure favored  
by George H. Watson, K.C. He  
wishes to drag the commissioners in  
that they have said under the restric-  
tions of a judicial enquiry and against  
the technical objections which may be  
to court and to make them prove  
entered as to what constitutes judi-  
cial proof or not.

Naturally the commissioners object  
and ask why it should be placed upon  
them either to exonerate or condemn  
the administration they were appointed  
to investigate. They rest upon their  
report, the result of a patient and  
honest investigation. They may rest  
conscientiously whether these legal pro-  
ceedings have been entered into for  
the purpose of implementing their re-  
port and of making it effective, or  
whether they have been inaugurated  
for the purpose of rendering it sug-  
gestory and of none effect.

The people of Canada, before whom  
the last appeal is heard, will condemn  
the commissioners and condemn the  
government because the people of  
Canada have never yet been accused  
of failure to recognize honest men  
when they see them, nor of failure to  
position for the deliberate purpose of  
penalizing their influence with their  
fellow citizens.

## Judge Paradis is Dead Murderer Moir Cap- tured

St. John's, Que., May 11.—Hon.  
Judge Paradis died early this morn-  
ing after a lengthy illness. The judge  
never thoroughly recovered from the  
effects of coal gas to which Mrs.  
Paradis and he were exposed some  
years ago. He was born in Lacadie,  
Quebec, Dec. 25, 1811, and educated at  
St. Mary's college, Montreal. He  
studied law with Messrs. Leblanc,  
Cassidy, and was admitted to the bar  
in 1865, was named Queen's Counsel  
during the administration of Hon. Joly  
de Lotbiniere, made judge in 1901. He  
was the member of St. John's from  
1883 to 1886, both times elected by  
acclamation. He was twice married,  
and leaves a widow and two daugh-  
ters and four sons.

## FATAL FALL AT CALGARY

Calgary, May 12.—While at work  
yesterday morning, assisting in the  
erection of the machinery which is  
being put up by the Calgary Natural  
Gas Co., east of the new Cushing  
mill, the foreman John Thrift, fell  
from the scaffold to the ground, a  
distance of fourteen feet, and sustained  
a fractured skull. The ambulance  
was telephoned for and the injured  
man removed to the hospital with all  
possible speed. Notwithstanding all  
that medical aid could do he died at  
6.30 in the evening.

There was no necessity of an in-  
quest.

That languid, listless feeling that  
comes with spring and early summer,  
can be quickly changed to a feeling  
of buoyancy and energy by the judi-  
cious use of Dr. Shoop's Restorative.  
The Restorative is a genuine tonic  
to tired, rundown nerves, and but  
a few doses is needed to satisfy the  
user that Dr. Shoop's Restorative is  
actually reaching that tired spot. The  
indoor life of winter nearly always  
leads to sluggish bowels and to sluggish  
circulation in general. The con-  
tinuous lack of exercise and outdoor  
activities, and out-time weakens the  
heart's action. Use Dr. Shoop's Res-  
torative a few weeks and all will be  
changed. A few days test will tell  
you that you are using the right re-  
medy. You will easily and surely note  
the change from day to day. Sold  
everywhere.

## All is Peace

Panama, May 11.—Secretary Taft's  
conference with President Amador,  
Foreign Secretary Ariza, Panama  
minister to the United States, Senor  
Arango, American minister to Pan-  
ama, Mr. Squires, and legal adviser  
of the Panama Canal Company, Mr.  
Nelson Cromwell on topics relating to  
treaties which they desired to negoti-  
ate between Columbia, United States  
and Panama, are understood to be  
satisfactory.  
Taft expects to conclude business  
relative to canal administration and  
inspection today and sail for the United  
States tomorrow.

## Murderer Moir Cap- tured

Arthur Ont., May 11.—Moir, who  
shot the Sergeant in the London bar-  
racks, was caught by E. J. Farrell,  
chief of police of Arthur, about ten  
miles in the country from here. Moir  
was standing in the stable of James  
Robb, when Farrell caught him. He  
put up a hard fight with the chief of  
police, but, with the assistance of  
another man, finally overpowered him.  
Wish searched he was found to be in  
possession of a 32 calibre revolver, full  
loaded. Moir confessed that he  
shot the sergeant but did not know that  
he had killed him until he read it in  
a newspaper. He pleads drunkenness  
as the reason for his action. He  
will be held here until the arrival to-  
morrow of the chief of police of Strat-  
ford. Chief Farrell received a re-  
ward of \$500 for the capture.

## Amer Cannot Control Tribes

Simla, British India, May 11.—After a  
long delay, the Amer of Afghanistan  
has replied to the Indian government's  
remonstrance against the invasion of  
British Tibet by Afghans. The Amer  
explains the difficulties of controlling  
or explaining the difficulties of control-  
ling the frontier tribes, and states that  
at he has issued stringent orders re-  
calling those who have crossed the  
border, and instructing the officials to  
prevent further incursions. Advice from  
Peshawar yesterday stated that  
while the McMahon tribesmen were  
still giving the British authorities con-  
siderable trouble, the most of the Af-  
ghans had withdrawn. Major General  
Sir James Wilcocks with two bri-  
gades of British and Indian forces had  
been ordered to proceed with punitive  
measures, and will take the field im-  
mediately.

Piles are easily and quickly checked  
with Dr. Shoop's Magic Ointment. To  
prove it I will mail a small trial box  
as a convincing test. Simply address  
Dr. Shoop, Medicine Hat, I surely would  
not send it free unless I was certain  
that Dr. Shoop's Magic Ointment  
would stand the test. Remember, it  
is made expressly and alone for anal  
pain, internal or external. Large jar  
sold by all druggists.

## Liner in Collision

Montreal, May 11.—Reports received  
here tonight by marconigram state  
that this morning the Dominion Lin-  
er, Ottawa, owned by the Canadian Steam-  
ship Company, was in collision with the  
Norwegian steamer Thordahl and was  
limping back to Quebec with her bows  
stuck in and her hold full of water. The  
report stated that all passengers were  
well and the ship in no danger. It was  
reported that the collision was  
blameless, but this was not credited,  
as the messages received said nothing  
about her fate. The collision occurred  
just west of the Gulf, about 150  
miles out from Cape Point, and in  
the Ottawa is proceeding very  
slowly up the river, it will probably  
be some time before full details of  
the accident are secured.

## Stumble Started Fire

Portage La Prairie, May 11.—The  
son of Ald. Frost stumbled over a  
pile in his father's barn, started a  
fire, and started a conflagration  
which consumed his father's im-  
plement warehouse, Ross & McLaugh-  
lin's livery and the office of Dr.  
Bradshaw, veterinary surgeon, on Sat-  
urday night. Only by hard fighting  
was the fire confined, the contents of  
the neighboring houses being removed.  
Mrs. McLaughlin, who was seriously  
ill, was removed from the house on  
a mattress.
